VA Subsistence Loss Is Cited

Veterans taking on the job training through the Veterans Administration face the loss of their subsistence allowance if they do not properly keep monthly training reports, R. W. Beoddy, local VA contact representative warned Thursday.

Formerly trainees under the GI bill were directly supervised by VA training officers. Since such supervision has been continued, there has been an increasing number of delinquent reports each month.

To prevent payments of subsistence to which veterans are not! VA to receive monthly training

The reports must be kept by the veteran trainees and then U.S. Launches approved by the employer who in turn should forward them to the VA, Beoddy advised, and added, "since there are approximately 20,000 on the job trainees in Ohio, exclusive of students in reports can be appreciated."

Turkey Scarcity Is Cited

Special Care Due Holiday Poultry

A threatened scarcity of tura keys for Thanksgiving and Christmas dinner tables was cited today in an appeal to poultry raisers to take extra care of their turkey flocks this Fall.

"Official estimates indicate the turkey crop is 20 percent smaller than last year," the American Foundation for Animal Health reported.

"But much of this decline could be offset, and unnecessary losses could be prevented, by better care and sanit ary measures between now and Winter."

To get to market the highest possible percentage of the turkeys, poultrymen were urged. to take the following steps:

"Keep turkeys and chickens in separate quarters a good distance apart, if possible. Chickens may carry certain diseases, and transmit them to turkeys, even when the chickens are not visi-

One to make ready! Two to GO! That's DYMAFLOY!

O'NE of the big reasons for Dynaflow* success is that - from the moment you take over-you just do what comes naturally.

So, to "make ready," you start your motor and it's plain common sense that your car should be in neutral.

Once your motor is purring, you flip a little direction lever to the "Drive" position - and forget that such things as low, second and high gear ever existed.

Your foot on the gas treadle makes you go-at any speed from I mile an hour to as many mph as the law allows. ... That's all there is to it.

All, did we say? Well, not exactly.

There's a glorious sense of freedom from driving drudgery.

There's the thrill of completely commanding a mighty power plant, such as you've never had before.

You get Dynaflow Drive, at extra cost, on Roddmasters only.

There's a sweetness to the whole "feel" of the car that's beyond anything in normal driving

There's a smoothness to the ride that even the folks in the back seat are going to talk about.

How come this driving magic?

Buick engineers have found ways to make spinning oil do tricks it has never done before.

They've arrived at a whole list of new principles for the transmission of power - a new pump, a true turbine, a new supercharging assembly which our friends of the press have been good enough to call "the biggest advance since the self-starter."

Why be a holdout? Sample Dynaflow for yourself. We'll be glad to arrange a demonstration - and beyond that, you can place an order, with or without a car to trade.

BUICK alone has all these features

* DYNAFLOW DRIVE * TAPER-THRU STYLING

* ROAD-RITE BALANCE * RIGID TORQUE-TUBE * SAFETY-RIDE RIMS * HI-POISED FIREBALL POWER * VIBRA-SHIELDED RIDE

no more than three cuts while shaving, a new track record, when the paperhanger, a scowling man with a walrus mustache, stood squarely in front of me and said, "Well-he's a SINCERE man." His attitude was so defiant, his mien so challenging, that I didn't have to ask who was so sincere. All through breakfast, I got another lecture on how this go-getter was going to lead us out of the

wilderness of war into the promised land of peace. I am nothing if not polite, and my politeness caused my oatmeal to get stone-cold. The Dewey people and the Truman people seem to be conducting themselves in the customary manner here in New York-completely biased against one another, of course, but generally living and letting live-but the Wallace camp seems determined to thrust the Great Ruffled Haircomb down my throat. It has made subway-riding a dangerous operation.

BELATEDLY, I GOT AROUND to the exhibit of Paintings by

Famous Amateurs at the Associated American Artists galleries in Fifth avenue the other day, and after a hushed and reverent walk around the assorted rooms, I decided that the artists were exactly Among the especially deadly pieces of work were a monstrously boisterous and unnerving canvas by Tex McCrary and Jinx Falkenberg called Do You Believe in People? (penguins and the aurora borealis), a blob by socialite Virginia Leigh called Color Signal, and a Jamaica seascape by Noel Coward that was the most start-

ling of all, because it was so earnest and so badly done, whereas Mr. Coward is famous for being languid and skillful. The best thing in the show-and it was so good that I will have to see the artiste at work before I believe she did it-was Bobo Sears Rockefeller's remarkable Fruitful, which reminded one of a kingsize Vermeer.

Claudette Colbert's Portrait of Mrs. Arthur Hornblow, Jr., was another stunner, and Mrs. Vincent Astor did The Publisher's Wife with a professional touch. The other good ones that I picked out were actress' Nina Foch's Brightly Dying, author Louis Bromfield's French Landscape, a spectacular finger painting by Gertrude Lawrence labeled Sonata, and Clifton Webb's beach setting, Nature Boy.

William Saroyan's contribution was intriguing. It consisted of the alphabet and the numerals-ending in a dollar sign-painted n white on purple.

350 WSCS Delegates *Attend District Meet In Methodist Church

30 Congregations Are Represented

About 350 women representing 30 different churches attended I the annual district Fall meeting of Woman's Society of Christian Service in Circleville First Methodist church Wednesday.

Featuring morning and afternoon sessions, the meeting pivoted around the central theme of "Advance."

Under the direction of Mrs. Clarence Thorne, president of the local woman's society, the morning session featured re-

ports given by four officers: Mrs. John Dick, recording secretary; Mrs. Paul Graybil I, promotion secretary; Mrs. D. B. Green, secretary of literature and publications; and Mrs. J. M. Allemang, treasurer.

An address also was given by Mrs. W. B. Landrum of Tyler, Tex., field worker with the Woman's Division of Christian Service. Her morning talk concerned "Rays of Light on Our Local Work.

A noon luncheon, under the direction of Mrs. Richard Funk, was served the 300-odd visitors.

In the afternoon session, the meeting heard an "in me moriam" given by Mrs. J. H. Sudlow in memory of members of the WSCS who had died in the last year. The reading brought especial focus on the life and work of the late Mrs. Marie

Afternoon address by Mrs. Landrum was based on "the four looks." They were:

The look backward, in which WSCS members ponder the missionary work of the church, both at home and abroad, and

its accomplishments; The look inward, a period of introspection in which the speaker urged all to become children of God with poise, fury and

utter abandonment required; The look upward, in which members were urged to seek a higher help with the realization

of the existance of God; and The look around, in which the women were urged to seek the nearest task, get busy and do it.

Tom Herbert says get what you PAY FOR

You have just one purpose in paying taxes to the state. That purpose is to secure certain services for the public good, which local units of government cannot by themselves supply. Unless those services are provided both adequately and efficiently, you are not getting what you pay for. Regardless of whether taxes are spent or held in the treasury, you are being gypped until you receive a full measure of the things you expect the state to furnish.

Governor Herbert Put Tax Money to Work

Tom Herbert energized all administrative departments so that the public receives better service. He financed the Soldiers' Bonus. Increased ate aid to public schools by \$49,000,000. Completed or placed under contract, \$19,000,000 more of welfare building construction than his predecessor accomplished. Awarded over 50% more highway project contracts. Held nearly four times as many civil service examinations. Paid local divisions of government over \$50,000,000 more than under the previous administration. Increased state aid for control of animal diseases.

His Opponent Quibbled on Expenditures

Herbert's opponent provided inadequately for public services. Did nothing to secure Bonus legislation. Vetoed appropriations bills for schools. Kept welfare institutions crippled for lack of funds. Got far behind on needed highway projects. Substituted provisional appropriations for civil service examinations. Failed to relieve debt-burdened local divisions of government. Gave agriculture insufficient belp against animal diseases.

It's Easy to Name the Better Governor

Tom Herbert provided adequately; administered funds efficiently so that they got you more for your money, and taxes themselves could consequently be reduced. The 'savings' claimed by his opponent were only state money held idle so that it brought the public nothing.

Tom Herbert made good. He gave full measure of the things you pay for, Re-elect him and the Republican legislature which worked with him for better government.

County Pupils Get Physicals

Dr. A. D. Blackburn, county health commissioner, Wednesday completed physical examinations in all Pickaway County high schools, and Thursday beschool pupils.

Blackburn reported the general health of all the youngsters he has examined to date is "good" although the average number of heart disease cases were found. The examination, when completed, will have covered every county first grader, new student and participant in school sports.

"In my years of public life I have learned two important lessons," the retiring official de-.

"First of all, home (township) rule is a good thing for it helps keep the county government on its toes; and second; the little offices are very important," he

While not in public office officially, Hoover said he intended to keep a watch on local politics because "I have always been interested in good officials," he declared.

HOOVER blamed his retirement on poor health and "because I like to farm. This way I can spend more of my time at it," he said.

The commissioner was 23 years old when elected constable and before his term expired, Hoover in 1905 was elected as clerk of Jackson Township trustees and clerk of the board of education.

His next post was town ship treasurer and school treasurer, two offices he held for about nine years. In 1912, Hoover was elected as township assessor.

From that position, he began two terms in 1928 on the township board of education as well as clerk and treasurer for the township again. Meanwhile, Hoover served 11 years on the county board of education.

In 1940, he was elected to county commissioner. His present term expires Jan. 1, 1949. He does not seek reelection.
